

# AYUSH SOOD

---

Hi I am graduating this year. Within my tenure in the University I have tried to help several students in one way or another. I have been a student mentor, a StAR, success coach, student council member and some other posts. I loved my time at UNI and will like to make your time worthwhile as well. I am aware of several issues faced by the students and would very much like to take charge in order to resolve the same for you.

I would be available to all the suggestions and complaints faced by each and every student and would do my very best to get you some positive results, the one I would have hoped to gain if I was still in your shoes. I would like to request you all to give me this opportunity so I can prove my worth to you and get you some extraordinary results.

THANK YOU!
