

# KONSTANTINS NIKIFOROV

---

Hello!

I am Konstantins Nikiforovs. You also can know me as Constantine Elijah. I am a BA Fine Art student. I want to care about the Cass students. I mean, to continue.

I am standing for the CASS Sabbatical Officer position and I would like to continue a dialog between students, courses and faculties.

I have been representing my course student fellows as a StAR for last three years. I also have been the CASS hub committee member and the London Met SU Student Council member for last two years.

I have already achieved:

1. Better communication in Fine Art course;
2. Raised concerns and found solutions about student issues at the Fine Art Course Committee meetings;
3. I was one of them who raised an issue about our printing machines. They has been changed;
4. I was one of them who suggested to increase a number of new printing machine. It has been increased;
5. I was one of these who suggested to bring back white paper for printing. We have it back;
6. I volunteered as the CASS ambassador at the open days;
7. I volunteered in publications about the Cass - 'Cass Life' newsletter;
8. I am volunteering on the London Met SU radio VERVE representing the CASS creativity;
9. I was one of them who represented the Cass in the British Council exhibition happened last year in China.

If you vote for me I promise:

1. stronger representation for students;
2. more visibility, as regular update about faculty and university coming events;
3. more SU events representing every course of the faculty;
4. more events encouraging inter-course engagement;
5. more events encouraging inter-faculty engagement.

If you vote for me I will improve our faculty wellbeing. I will:

1. make more CASS clubs;
2. make more CASS societies;
3. work to bring university services to us here! There will be a day when you won't go to the other building, but they will come to you to this building;
4. improve communication between students and tutors;

5. install more notice boards which will regularly updated with information regarding to your studies and events related to it.

My believe is:

Happy you - happy course

Happy course - happy faculty

Happy faculty - even better value

I want to make sure that every you is heard and every you is valued.
