

BARBARA NTUMY

Barbara #1 For NUS delegate

Defend education

I stand in complete solidarity with Black communities in fighting racism. I believe the Black community must take a leading role in anti-racism campaigning and that we need unity between Black communities, Jewish communities, the labour movement, students and all anti-racists in opposing racism. Diversity is in this country's past, present and future, we must embrace it with open arms. I support free, state-funded further and higher education. I stand for living maintenance grants and total opposition to all fees and charges for education. I believe we need the maximum student mobilisations in opposition to attacks on education and for the broadest unity with trade unions and the wider labour movement.

Stand up to racism & fascism. Yes to diversity

I stand in complete solidarity with Black communities in fighting racism. I believe the Black community must take a leading role in anti-racism campaigning and that we need unity between Black communities, Jewish communities, the labour movement, students and all anti-racists in opposing racism. Diversity is in this country's past, present and future, we must embrace it with open arms.

For international peace & Justice

War has cost this country billions of pounds and thousands of innocent lives. I stand for the broadest possible anti-war movement and for the government to change their twisted spending priorities and fund education, not war. I stand for an end to the illegal occupation of Palestine and for self-determination for the Palestinian people. We need peace based on justice and the full implementation of international law, including UN resolutions and human rights laws.
