

# KEHINDE OLALEYE

---

**EXPERIENCE:** As a present MSc Information Technology student, I have a unique insight into LMU life. During the few moments I've spent, I was heavily involved in the NUS and Societies, and my experience of LMU life and event organisation gives me the skills required to be YOUR sabbatical officer. I am the present Vice chairman of the Student Council and the current president of the Nigerian Society.

**Manifesto:** It has been my passion to contribute to the welfare of students in our University; I wish to take my contributions to the next level. I plan to make the students union more student-centric, open and closer to every student irrespective of race, gender, religion and/ or believes. I plan to make the union a hub of ideas where students will be free to contribute their opinions as with regards to what happens inside and outside of the student union. I wouldn't just stop at campaigning against the tuition fees increase, rather will go a step further to ensure that the increase is justified with a corresponding increase in the quality of education that we receive in our university.

I will encourage dialog between students, the academia and other stakeholders to ensure that our graduates are better trained and equipped to compete favourable with others in the job market. I shall work hard to encourage the participation of corporate bodies via seminars, symposiums, conferences, internships (short/long) and corporate visits by our students to help all us understand the skills we will require to be able to single ourselves out in the tough employment market of today.

I shall work hard with the university to provide more guidance/ assistance to vulnerable students experiencing personal, professional and/or academic difficulties. I shall promote the registration of more societies and support their activities to promote active participation by all students involved. I believe that every student of this university has something they can do better; my job will be to encourage all groups/ individuals and be able to harness their capabilities while in school.

I shall work against those things that make all of our lives miserable here, job/education cuts. I shall work to make the Library open for 24 hours and make sure that students are consulted before any decision is being made that could affect our lives in the school.

## **POLICIES:**

\*To improve YOUR academic experience\*

\*Standardised feedback across departments: I will work with the Pro-Director for Teaching and learning to ensure departmental consistency with both quantitative and qualitative feedback we receive.\*

\*To improve YOUR social and community experience\* \*More tailor-made events: from careers networks to national and cultural events as well as postgraduate club nights.\*

\*Events and meet-ups over summer to build our community \*To defend YOUR education\*

\*Campaign on Post-Study Work Visas and state-backed postgraduate loans.\*

\*Lobby and demonstrate against education cuts and government policies which hit students hardest.\*

\*\*\*\*\*

\*So for an inclusive, supportive community vote KEHINDE OLALEYE and make your vote COUNT\*

Best Regards

Kehinde
