

# KHALID ELKHAZMI

---

Eyup! My name is Khalid, a final year Aviation Management student and I am running for the Guildhall Faculty of Business & Law officer.

Benjamin Franklin once said 'An investment in knowledge pays the best interest', in this day and age, your degree is merely the return on investment, the extra circular activities is the actual 'interest earned' the profit, that you actually earn, and this is what makes the true difference.

University's a life changing experience and it's these experiences that would build and shape our personalities and decide our future. If elected, I'll ensure that the SU is more active and has more activities, events and workshops that are designed to be fun, engaging and fruitful. Vote for me as your **GFBL Sabbatical Officer** and I will ensure that **OUR student union always puts YOU first**. Vote for a more active and engaging student union.

- Vote for an **SU that puts students first!**
- A student Union that has the **interest of the students at heart!**
- An SU that is there to pressure the university to deliver on what it has promised on (and more!)

Vote for an individual who is **not afraid challenge the university**. We're all too aware of the 'rather warm' city library, if elected I'll ensure that **all** libraries and facilitates are comfortable and are designed to higher standards. I've been a StAR for two years running. One thing I've truly learnt, is that you have to be **not afraid to speak up** and not afraid to **fight YOUR corner**. If elected I'll endeavour to fight for more **readily accessible library facilities**. Having multiple Libraries spread throughout the campuses maybe an inconvenience, you're in one library and find that the book you actually want is in another. This is my third university I have studied at and all had multiple libraries. Sadly, the only University where you can't **reserve a book online from one library to be collected at another** is here! If elected this will be one of the issues that will be at the forefront of my objectives

Before joining the London Met family I was a student at the University of Bradford and during my time there I was involved in the SU. I was also a member the 'Staff Student Liaison Committee', my role was to represent the students' views, concerns and bring up issues that affected the student's academia to the University staff and lecturers.

Prior to Bradford Uni, I completed my foundation year at Leeds Met. At my time there I was also involved in student representation, as I was a Student Academic Representative. I sat in long dreary meetings with the university's top management and was **never afraid to represent student's views and opinions**.

At London Met I became a StAR, joined the Student Council and Guildhall Hub Committee, as well as being a PASS Coach in my second year.

**Vote Khalid for Experience, Passion and dedication.**
