

LISA BORNØ

Lisa Bornø Manifest

I want to be there unconditionally for CASS and Commercial Road students. As the CR students are being forced to move to Calcutta house over summer, I want to do everything I can to make this transaction as smooth as possible by having a good relationship with the rep of that faculty. It is in my intention to meet with that rep to find ways to achieve this. As there is so much uncertainty and little communication from LMET management, I am not sure if the students who move will be identified as CASS students. Whatever any decisions I will make sure they cause little or no disruption to the students I dedicate my term in the SU to.

One campus one community

My view on the OCOC plan is that a Two Campus solution would be in the best interest for the future of the CASS faculty and to its survival. I have been campaigning against OCOC since late October. I felt so strongly about LMET's plans for the future of the CASS that I occupied along with my fellow CASS students in December 2015. We made a stand demanding the respect of both us the students and our tutors. If we can't win the fight then I will fight for better facilities at Holloway and make sure that the designated rooms are sufficient to the students.

Office

I would like to have an office at the CASS building so that I can be able to interact with students and for students to be able to drop in with any questions or queries and as a way to be involved with the Stars of each class.

Letterbox

I will have a letterbox for students to put their ideas, wishes and questions in, it will be located somewhere easily accessible.

Security

I want all students at the CASS to feel secure and for their belongings to be secure while they are here. For everyone to respect each others studio space so that there will be a lower chance of theft.

Exhibitions and field trips

I would like to arrange several trips to exhibitions in and hopefully outside London, for a lower price or free.

Events

Events for you to interact and network with other students on other courses in your building. I would like to create different events that might be relevant for students course, Art party, Mini film festival, photography exhibitions, live art party, theme party, fashion show, etc. I will be very open to students suggestions.

Bullying and racism

Even though there are mostly adults attending this uni there are still cases of bullying amongst students. I will not tolerate bullying and will try to address this with my best effort. No one should dread going to uni in the morning, we are amongst like minded people and we are all here for the same purpose, to do art and get our degree. This includes racism, there will be a zero tolerance against racism. It's 2016.
