

SARANG KHARCHE

“There comes a time when one must take a position that is neither safe, nor politic, nor popular, but he must take it because conscience tells him it is right.” - Martin Luther King Jr.

Dear fellow student,

It all started last year when I was elected to be Holloway Hub Committee Member. Since then I am working in accordance with students and the staff to enhance their experience at Holloway Hub. Moreover, I have previously been involved with Students Union by being a Students Council Member and by being on Editorial Board.

These experiences made me realize the potential of our system and the ways in which it can be used to benefit students, therefore I believe I can take a step forward being a Sabbatical Officer FLSC.

For Students:

- Work on ‘One Campus, One Community’ in accordance with students and the University. It has been a very ongoing issue within the University and S I will support the students affected due to this decision.
- More economic supports for home, hardship funds to be available for Home, EU and International students. I will encourage all faculties to introduce scholarships and bursaries.

For Society and Sports:

- To encourage more students to participate in the events and societies I believe increase in funding for societies and events is needed.
- At every University it is crucial to have a good sports culture to maintain unity within students. Increase in sport facilities and encouragement to join sport teams, will give every student a chance to be part of the team and be healthy.

University facilities:

- Campaign for 24h libraries at London Met. I believe this will help students to maximize their efforts during exam period.
- Install lockers for the convenience and peace of mind.
- Encourage cafeterias at University to serve affordable and healthy food for the benefit of the students.

Despite all the points that I have in mind, getting concerns from students and working on it will be of peak importance, and as a student I believe that there is room for improvement.

By becoming the Sabbatical Officer FLSC I can achieve these changes and make a difference to our education. I am willing to make students experience at University Remark-Able and to make their studies as smooth as possible.

Being an International student myself, I feel that I will be able to improve the points listed above.

Finally I wish to say that I am sincerely interested to listening to your concerns, and helping to enhance your experience at London Metropolitan University.
